

ReCree8® PCR Pallet Wrap Range

50% PCR Resin · Market-First · GECA Verified

Australia's first pallet wrap range made with verified post-consumer recycled resin.

WHAT IT IS

ReCree8® PCR Pallet Wrap is made with **50% post-consumer recycled ReCree8® resin** — the first pallet wrap range in Australia to use verified PCR content. **After 3–4 years of R&D**; and field trials in national warehouse settings, this range delivers comparable stretch, tear resistance, and load stability to virgin pallet wrap — **without the virgin resin exposure** or the greenwashing risk.

PERFORMANCE & APPLICATION

- **Comparable to virgin wrap** — proven stretch, tear resistance, and load stability
- **50% PCR resin content** — reduces virgin plastic use by half per roll
- **Hand and machine formats** — EcoGrip hand wrap and two machine wrap options
- **100% Recyclable in PE streams** — accepted in traditional polyethylene recycling
- **Field-proven** — trialled and validated in national warehouse environments

Sustainability credentials

- Reduces virgin plastic in your supply chain by 50%
- Verified by GECA from 100% post-consumer soft plastic waste
- Supports ESG and Scope 3 emissions reporting
- Aligns with National Plastics Plan
- GECA verified — accepted in corporate sustainability audits
